

**ANALEC**

**ANALEC is a Finalist for the 2013 Red Herring Top 100 Asia Award**

**New Delhi, 14<sup>th</sup> August 2013** – **ANALEC**, a leading provider of financial platforms to the investment research industry, announced today it has been selected as a finalist for Red Herring's Top 100 Asia award, a prestigious list honoring the year's most promising private technology ventures from the Asian business region.

**ANALEC** combines deep domain knowledge of the investment research and client servicing functions within broker-dealers, investment banks, and money managers with excellence in software development to deliver proprietary technology and technology-enabled research analytics and client servicing solutions that facilitate investment decision-making, improve the quality of research produced, whilst managing compliance risks and enabling optimal handling of client servicing challenges.

The Red Herring editorial team selected the most innovative companies from a pool of hundreds from across Asia. The nominees are evaluated on both quantitative and qualitative criteria, such as financial performance, technological innovation, quality of management, execution of strategy, and integration into their respective industries.

This unique assessment of potential is complemented by a review of company track records and standings, which allows Red Herring to see past the "buzz" and make the list a valuable tool for discovering and advocating for the best business opportunities in the industry.

"We are both thrilled and honoured to be recognized by Red Herring as a leading force in technology and innovation in Asia. In growing **ANALEC**, we have drawn on our domain knowledge, our desire to constantly innovate, amazing technology development know-how and our common focus to deliver technology-oriented products that solve our customers' challenges in the highly dynamic investment research industry. We are looking forward to presenting our company and solutions to the Red Herring Asia Forum in Hong Kong", commented **Indy Sarker, CEO, ANALEC**.

"Entrepreneurship in Asia has reached an inflexion point, and as a result Red Herring Asia 2013, has shifted into a new phase," said Alex Vieux, publisher and CEO of Red Herring. "A second generation of entrepreneurs with CEO backgrounds is emerging and their execution skills and global ambitions lead to restless growth and amazing journeys. As importantly, we are seeing more companies from countries once absent from innovation circles. **ANALEC** shows great promise and therefore deserves to be among the finalists. Now we're faced with the difficult task of selecting the Top 100 winners of Red Herring Asia. We know that the 2013 crop will reward us for long and continued efforts in scouting disruptive companies in Asia. The wealth of talent and achievements displayed by Red Herring Asia finalists is an excellent predictor for the new world rising."

Senior members from the **ANALEC** team will be presenting their winning strategies at the Red Herring Asia Forum in Hong Kong, September 3 to 5, 2013. The Top 100 winners will be announced at a special awards ceremony the evening of September 5 at the event.

## **Additional Information**

### **About ANALEC**

ANALEC is a specialized financial technology company focused on the investment banking and investment research industry. It leverages its deep domain knowledge of the investment research and investment banking industry to develop and deploy proprietary enterprise level software-enabled business process solutions, addressing very specific organizational issues and challenges within investment research and client servicing functions. Under its remote delivery model, ANALEC offers its customers the option to remotely manage and deliver a range of services. Established in June 2003, ANALEC brings together over 80 years of leading expertise in investment research, investment banking and software development and deployment.
